

COVID-19 Update, 7/30

July 30, 2020 | [ARKMED.org/covid19](https://arkmed.org/covid19)

Status Update as of 7/30 from ADH Website:

[View the ADH COVID-19 Dashboard here.](#)

- Confirmed cumulative cases in Arkansas - 41,559
- Active cases - 6,580
- Recovered patients - 34,537
- New cases since 7/29- 791
- Deaths - 442
- Patients in the hospital - 504
- Patients on ventilators - 101

Update Coming on Preoperative Testing for Elective Procedures

The Arkansas Department of Health directive requiring preoperative testing for elective procedures is being rescinded. This is according to statements made by Dr. Jose Romero, Interim Secretary of Health, during the Governor's COVID-19 press conference earlier today. AMS expects written confirmation, along with any related information will be available this evening or by tomorrow morning. [Watch tomorrow's Update for more information.](#)

CMS and CDC Announce Provider Reimbursement Available for Counseling Patients to Self-Isolate at Time of COVID-19 Testing

Today, the Centers for Medicare and Medicaid Services (CMS) and the Centers for Disease Control and Prevention (CDC) are announcing that payment is available to physicians and health care providers to counsel patients, at the time of coronavirus disease 2019 (COVID-19) testing, about the importance of self-isolation after they are tested and prior to the onset of symptoms.

The transmission of COVID-19 occurs from both symptomatic, pre-symptomatic and asymptomatic individuals emphasizing the importance of education on self-isolation as the spread of the virus can be reduced significantly by having patients isolated earlier, while waiting for test results or symptom onset. The CDC models show that when individuals who are tested for the virus are separated from others and placed in quarantine, there can be up to an 86 percent reduction in the transmission of the virus compared to a 40 percent decrease in viral transmission if the person isolates after symptoms arise.

Provider counseling to patients, at the time of their COVID-19 testing, will include the discussion of immediate need for isolation, even before results are available, the importance to inform their immediate household that they too should be tested for COVID-19, and the review of signs and symptoms and services available to them to aid in isolating at home. In addition, they will be counseled that if they test positive, to wear a mask at all times and they will be contacted by public health authorities and asked to provide information for contact tracing and to tell their immediate household and recent contacts in

case it is appropriate for these individuals to be tested for the virus and to self-isolate as well.

CMS will use existing evaluation and management (E/M) payment codes to reimburse providers who are eligible to bill CMS for counseling services no matter where a test is administered, including doctor's offices, urgent care clinics, hospitals and community drive-thru or pharmacy testing sites.

Further information and resource links are available in the Counseling Check List PDF here: <https://www.cms.gov/files/document/counseling-checklist.pdf>
